Description: From the very first day of our lives, Colours play an essential role. According to each person's vibrations, there are one or more fortunate colours that might improve one's outlook on life and bring good fortune. Each colour has its own vibration and its own vibratory influence. When beginning a new endeavour, we need all the luck we can obtain. Therefore, it's wise to be aware of the fortunate colours associated with your body vibration so that events might go your way. These colours bring forth success, prosperity, and happiness. You may have heard people talk about Colour Astrology. Colour Astrology is a branch of astrology where fortunate colours for wearing clothes, mobile, business logo, business name, product colour, vehicles or even properties, are identified after careful analysis of one's body vibrations. Some people believe that changing certain colours in their life or business can help them reach greater heights. It's a popular trend and many people have found success through it. For this reason, we developed a miraculous occult method which is known as **Spiritual & Scientific Astrology**. Through this method, we deeply analyse various vibrations attached with one's physical body and auric field. On behalf of this analysis we identify one's fortunate colours.
